The financial statements have been prepared on accrual basis under the historical cost convention. The accounting policies adopted in the preparation of the financial statements are consistent with those followed in the previous year.

All other expenses on existing Property, Plant & Equipments, including day-to-day repair and maintenance expenditure and cost of replacing parts, are charged to the statement of profit and loss for the period during which such expenses are incurred.

Advances paid towards the acquisition of Property, Plant & Equipments outstanding at each balance sheet date are disclosed as "Capital Advances" under Long Term Loans and advances.

Depreciation on PPE is provided on Written Down Value Method at the rates and in the manner prescribed in AS-10 Property, Plant & Equipments.

Excise duty deducted from revenue (gross) is the amount that is included in the revenue (gross) and not the entire amount of liability arising during the year.

Borrowing cost includes interest, amortization of ancillary cost incurred in connection with the arrangement of borrowings and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost.

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset. All other borrowing costs are expensed in the period they occur.

g. Provisions, Contingent Liabilities and Contingent Assets

Provisions involving substantial degree of estimation in measurement are recognized when there is a present obligation as a result of past events and it is probable that there will be outflow of resources. Contingent Liabilities are not recognized, but are disclosed in the notes. Contingent assets are neither recognized nor disclosed in the financial statements.

h. Use of estimates

The preparation of financial statements in conformity with Indian GAAP requires managements to make judgments, estimates and assumption that affect the reported amounts of revenues, expenses, assets and liabilities and the disclosure of contingent liabilities, at the end of the reporting period. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods.
